Don't hit "Add sample" or it will create a second sample.
 Just hit "Submit" after required information is complete
 We prefer a single sample record because it is easier in the LIMS system.

Instead of creating multiple sample entries by using “Add Sample”, you can just indicate number of samples and upload a Excel or Word file

The screenshot shows a web interface for adding a submission. On the left is a navigation menu with categories: Data (Groups), SMMS (Request Analysis), and Analysis (Mass Calculator). The main header has 'Home' and 'Help' tabs. The title 'Adding Submission' is in red. There are 'Cancel' and 'Submit' buttons in the top right. The form fields are as follows:
